

DUVON™

LIGHTING THAT PERFORMS

SPORTS LIGHTING SYSTEMS

ENGINEERED SOLUTIONS FOR OUTDOOR APPLICATIONS

UPGRADE YOUR FACILITIES WITH DUVON™

Duvon™ designs and manufactures complete LED lighting systems engineered for performance, long-term reliability, and simplified service.

DUVON DARK SKY & ANTI-GLARE

ZERO GLARE — ZERO SKY GLOW

BUILT TO ENHANCE VISIBILITY

Designed for communities, HOAs, and strict code zones, our system delivers controlled footcandles, Duvon Dark Sky-compliant 2700K–5000K CCT options, and smart controls for dimming, zoning, and scheduling.

ZERO UPLIGHT (0% ULOR)

True full cutoff. Only your court is lit.

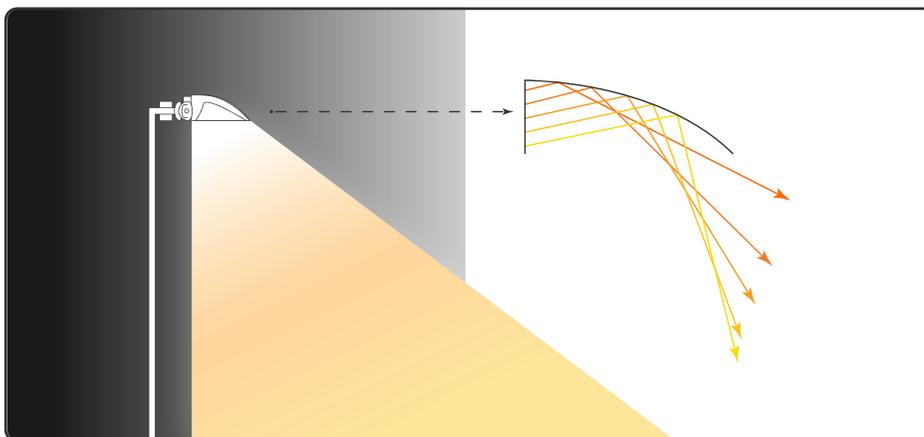

INDIRECT, ASYMMETRIC OPTICS

Precision reflector design.

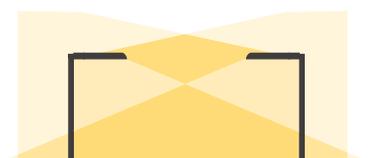

GLARE & SPILL FREE

Sharp visibility, glare-free visibility.

DUVON™ — NO SPILL

OTHERS — SPILL

Court Series Indirect Asymmetrical Fixture Head 0% ULOR Diagram. Color temp is depicted for visual contrast
Duvon Dark Sky Compliant is an internal performance designation and is not affiliated with DarkSky International

COURT SERIES

IN STOCK — SAME DAY SHIPPING

SERIES FEATURES

Our full-cutoff, indirect asymmetric optics are engineered to keep light exactly where play happens—eliminating upright, minimizing spill, and reducing glare in the player's line of sight. The result is clean, controlled illumination that enhances visibility on the field.

- ✓ PREMIUM FIXTURE QUALITY
- ✓ GLARE FREE, FULL CUTOFF OUTPUT
- ✓ DURABLE, TEMPERED GLASS LENS
- ✓ SMART CONTROLS SUPPORT
- ✓ PHOTOMETRICS AVAILABLE
- ✓ 10 OR 20 YEAR WARRANTY

PROCOURT

BUILT FOR MATCH PLAY

COURT SERIES

LED 300W / 400W

(Replacing 600W / 1000W MH)

APPLICATIONS

- Tennis & pickleball courts (Primary)
- Basketball courts and more
- Golf ranges and courses
- General sports facilities
- Streets, highways & bridges
- Ports, shipyards, airports
- Railyards, freight zones

PATRIOT

COMPACT POWER

COURT SERIES

LED 100W / 150W / 200W

(Replacing 600W / 1000W MH)

FREEDOM

HIGH OUTPUT

COURT SERIES

LED 600W / 800W

(Replacing 600W / 1000W MH)

FIELD & STADIUM

HIGHT OUTPUT — LONG RANGE

SERIES FEATURES

The Stadium + Field Series delivers powerful, uniform lighting for large outdoor sports venues. Built for durability and precision, these fixtures provide consistent visibility across full playing surfaces while meeting the demands of competitive and multi-field environments.

- ✓ PREMIUM FIXTURE QUALITY
- ✓ GLARE FREE, FULL CUTOFF OUTPUT
- ✓ RGB OPTIONS AVAILABLE
- ✓ SMART CONTROLS SUPPORT
- ✓ PHOTOMETRICS AVAILABLE
- ✓ 10 OR 20 YEAR WARRANTY

VANGUARD

STADIUM DOMINANCE

STADIUM SERIES

LED 300W / 1600W

(Replacing 600W / 1000W MH)

APPLICATIONS

- Football, soccer, baseball & softball fields
- Outdoor stadiums & sports complexes
- Tennis, pickleball & multi-use courts
- Golf driving ranges
- Ski slopes and ranges
- Large event fields & arenas

APEX

BIG STAGE POWER

STADIUM SERIES

LED 1200W — 1600W

(Replacing 600W / 1000W MH)

UNION

RELIABLE PERFORMANCE

STADIUM SERIES

LED 300W / 600W

(Replacing 600W / 1000W MH)

LIBERTY

ROBUST VERSATILITY

FIELD SERIES

LED 800W / 1200W

(Replacing 600W / 1000W MH)

DESIGN BUILD & RETROFITTING

Design-build and retrofit solutions are engineered to deliver predictable performance, simplified installation, and long-term reliability across a wide range of applications. Existing facilities can be upgraded efficiently with minimal disruption, improving light quality, energy performance, and overall system consistency while extending the usable life of the infrastructure.

MOUNTING & ACCESSORIES

FOR SEAMLESS INSTALLATIONS

SQUARE POLE

Square pole mounting options are designed for secure attachment and precise alignment in field and stadium applications. Purpose-built brackets and accessories ensure a stable fit, consistent aiming, and reliable long-term performance on square pole structures.

ROUND POLE

Round pole mounting solutions are engineered to conform to curved surfaces while maintaining a secure, centered attachment. Dedicated brackets and accessories provide consistent aiming, structural stability, and dependable performance.

MULTI-USE

Multi-use pole mounting systems are designed to support multiple fixtures on a single pole without compromising alignment or structural integrity. Ideal for stadium and area lighting poles where performance, balance, and scalability are required.

COLOR OPTIONS

Select fixtures are available in multiple color options to meet project-specific needs while maintaining consistent performance and durability. Ask about our custom options.

WHITE

BLACK

SILVER

STEALTH

GREEN

ADVANCED CONTROLS

Control solutions are available for projects that require scheduling, monitoring, or dynamic lighting beyond standard applications. For most installations, straightforward on/off operation and dimming deliver reliable, cost-effective performance while maintaining ease of use and long-term system stability.

SMART CONTROL SYSTEMS

OPTIONAL SYSTEM INTEGRATION

A. WIRELESS DMX

Dynamic lighting control with mobile access, scene management, and real-time monitoring for advanced or multi-use installations.

B. WIRELESS ZIGBEE

Intuitive lighting control with scheduling, dimming, and flexible connectivity for facilities requiring centralized management.

WIRELESS CONNECTOR

An optional 3-in-1 interface that adapts DMX, DALI-2, D4i, or 0-10V control signals to connected fixtures—ideal for retrofits or mixed systems.

PROJECT SHOWCASE

With a combined 30 years of lighting experience, we lead the industry in precision-engineered lighting systems tailored for court-specific applications.

Our approach emphasizes value engineering, lighting uniformity and ball flight visibility to ensure a high-quality playing experience.
